Arrive: 5:30 – 6:00 p.m. **Tour:** 6:00 – 7:00 p.m. **Cost:** FREE

[Tour of Virginia Western Manufacturing Technology Center:](#)

Come and see how Virginia Western Community College is expanding its programs to be a partner in the manufacturing community. The college has recently renovated Webber Hall to add a Manufacturing Technology Center. Including in this center are labs and training centers for electronics, electrical wiring, pneumatics, hydraulics, vision systems, information technology and PLC's. They also have an automated robotic assembly line featuring Computer Integrated Manufacturing. Along with the training centers, they are beginning to offer a host of courses in manufacturing technology.

Virginia Western is positioning itself as the primary training partner for manufacturing in Southwest Virginia. Come and tour the facility and learn what programs are available for the community and your company!

DIRECTIONS:

We will meet at the Virginia Western Natural Science Building next to the Arboreum Greenhouse. From 581S, take the Colonial Avenue exit heading south (past the Roanoker Restaurant). Go past the overhead walkway crossing Colonial Avenue and take your first left onto Winding Way Road. Follow the signs for parking on the left.

Go to http://www.virginiawestern.edu/about/campus_map.html for the campus map.

Contact John Dyer to reserve your spot by Monday Feb 11 at noon.
